## Engine Co. Skills Academy- Part 1

### Five Day Course

This class focus is on the first arriving Engine Company. Providing the Fire Behavior recognition that will build the foundation to make the decisions of how and if an interior attack is within your capabilities. Both the National Fire Academy and Iowa Fire Flow formulas will be covered as well as the science and fundamentals of water application.

The hands on training and live fire labs will demonstrate principals discussed during classroom lectures giving the student the ability to recognize the fire behavior, and develop an understanding of proper water application and its effect on the fire and impact to interior conditions. These lectures, fire behavior labs, and live fire evolutions will better enable the student to recognize the fire behavior, choose the proper attack, and get the initial attack line stretched and water on the seat of the fire.
